Galerie Anne-Sarah Bénichou (Statements sector, France)

In the Marais district of Paris, emerging gallerist Anne-Sarah Bénichou has pursued a diverse, intergenerational program of artists from both France and abroad. Her roster includes artist **Marion Baruch**, born in Romania in 1929 but resident in Italy for many years, who creates sculptures out of fabric that offer an innovative vision of architecture. Also in the stable is Chourouk Hriech, whose black-and-white drawings of landscapes and figures have the feel of graphic novels, as well as ascendant contemporary still-life painter Mireille Blanc. One of the younger gallerists to be invited to Art Basel in Basel, Bénichou will have a presentation in the young galleries sector Statements, dedicated to French sculptor Juliette Minchin.
